RE: UPS SHIPPING ADDRESSES

Based on the continuing UPS invoice corrections - -I have tried to edit your shipping addresses to four lines—this is all that shows on the UPS invoices – and may be all that you’re allowed to enter.

Please –the MOST IMPORTANT element for UPS is the street address. They use GPS and are not familiar with the names of buildings or individuals.

A couple of sites have not provided street addresses (e.g. Troy – main campus, Tuskegee) and so far, UPS has not charged for an address correction. UPS DOES charge if you use Drive instead of Street (or vice versa) North instead of South (UAB Sterne Library) or leave off the address entirely (UA Gorgas library)

If you want an example of a format that CONSISTENTLY works, look at your own address on packages from the UAB Sterne Library. I have never had ONE error correction from UPS for this library. The ILL department uses the format:
